### Description

This is the centennial edition of the classic design and art of Pamela Coleman Smith. It set the standard for tarot decks. Colors are more subdued and less glaring than the "Rider-Waite" style, as the artist intended. Great for learning and an important part of tarot history.

I made my very first video on facebook about this tarot deck during a flash sale when we received our first samples. The flash sale is over of course, but [this video gives you a complete description of the deck and cards, plus some of its history.](#)

The deck is the same size as a standard deck of playing cards 4.05 x 2.36inches(103mm x 60mm). This decks sleek design has been well received by readers all over the globe. Ease of shuffling and a condensed layout lend a more private and intimate feel to readings. Printing done with beautiful bright clear pictures makes working with them a joy. All major arcana and court cards are marked with names. Minor Arcana are marked with Roman numerals. If you are new to tarot, start crafting your magic with this Amazing deck.
